## Bedfordshire Luton Children's Health: A Platform for Families

Introducing [www.bedslutonchildrenshealth.nhs.uk](http://www.bedslutonchildrenshealth.nhs.uk) the new online NHS resource for parents and carers. Designed with local families, 0-19 team and other local NHS children's services to be a go-to resource for children and young people's health advice.

Using a collaborative approach, the platform focuses on providing easy access to health information and using evidence-based topics to support the diverse needs of families.

With a mixture of original content and linking to local information, Bedfordshire Luton Children's Health is a resource supporting and connecting local services.

This website combines all the online offers previously provided on the Cambridgeshire Community Services NHS Trust website.

This is just the launch, there is still lots exciting work to come to continue developing the platform. There are also lots of opportunities to collaborate and ensure seamless linking between local resources.

An introductory campaign has just launched. To find out more and access template materials visit the dedicated professionals blog post '[A Platform for Families](#)'
